TO WITHDRAW SHIPS

The Blockading Squadron Notified of New Agreement.

A Kansas Woman Runs Amuck and Breaks Out Several Plate Glass Fronts.

LATE TELEGRAPH NEWS

BLOCKADE TO BE RAISED.

London, Feb. 14.—Instructions have been telegraphed to the commanders of the blockading squadron off Venezuela to withdraw their ships, in consequence of arrangements completed at Washington. The blockade will be immediately raised.

By the provisions of these preliminary protocols, which have required more than three weeks of constant negotiations, Venezuela makes two distinct gains—the immediate raising of blockade, from which she has been suffering for some weeks, and the return of all vessels, war and merchant, which have been captured by the allied fleet.

Great Britain, Germany and Italy received advance payments of 5,500 pounds each. Great Britain receiving her payment on the signature of the protocol, and Germany and Italy with in 30 and 60 days from date. Germany, in addition, will receive five monthly payments until the full amount paid her in advance aggregates \$340,000. As a guaranty for the satisfaction of their claims. Mr. Bowen pledges the allies a share with the other creditor nations in 30 per cent. of the customs receipts of the two ports of La Guayra and Puerto Cabello. This percentage will be set aside, beginning March 1 and retained in the Venezuelan treasury until The Hague tribunal shall decide whether it shall be distributed without preference among the claimant nations, or whether the allied powers of Great Britain, Germany and Italy shall receive preferential payments.

TWO CARNIVALS NOW

The Red Men are to Have One in October in Paducah.

Report of the Committee Adopted Last Night at Regular Meeting of Lodge

COMMITTEE NAMED MONDAY

Otego Tribe, Red Men, last night decided to give a carnival in Paducah in the fall, which will give us two carnivals this year. Articles of incorporation, as told elsewhere, have already been filed for the Carnival association which is to give the spring carnival, and preparations for it will begin at once.

It was reported recently that the association might abandon its idea of giving a carnival and the Red Men, who desired to take up the project in case it was abandoned, appointed a committee to investigate. Last night the committee, which was composed of Messrs. H. C. Rhodes, Al Foreman, Ben Weille and James M. Lang and Dr. C. E. Whitesides, made a report recommending that the Red Men give a carnival or festival in the fall.

The report was adopted, and the sashem, Mr. H. C. Rhodes, was instructed to appoint with concurrence of other officers, the standing committees, and will do so at a meeting to be held Monday night for the purpose by the officers.

The Red Men have become one of the strongest and most influential lodges in the city, and there is an abundance of enterprise in it. They have taken up the carnival project in a manner that means business, and will lose no time in perfecting their arrangements.

Mr. Reinhard, of the Cincinnati Carnival company, has left with the lodge a proposition for furnishing attractions for the carnival, and it is probable it will be acted on shortly.

The carnival, or festival, will probably be held the first week in October, and will last a week. The attractions will be furnished by the carnival association offering the best contract.

BETTER FUMIGATION

Supt. Hatfield Makes Some Suggestions About it.

Thinks the City Should Assign Fumigation As a Special Duty.

CITES AS TO ONE CASE

Superintendent C. B. Hatfield of the local public schools has proposed a plan by which fumigation in Paducah can be made what it should be.

"I have paid a great deal of attention to fumigating, especially in homes where scarlet fever has been," Prof. Hatfield explained this morning, "and know how it is done. The health officer and the physician who attended the case, after discharging the patient as cured, will direct the family to 'fumigate' and here his duties end. It is not strictly the duty of the health officer or physician to see to the fumigation, as it might be considered unprofessional, and a good plan, I think, is to have someone appointed to see to this work.

"My idea is to have someone connected with the city hospital to do the work and have only this special duty. When he is not thus employed he can assist at the hospital and not be a burden on the city.

"Scarlet fever is a disease greatly feared and seldom leaves the patient without some reminder of its visit. As a general rule fumigation by the family is not what it should be. The sulphur should be burned in the room after every crack and crevice has been stopped up. The keyhole should even be plugged and the sulphur forced into every little crack and crevice where a germ might lodge. Last season there was a case of scarlet fever in one family and after the patient had been discharged the house was fumigated. This season another case developed in the same house, which goes to show that the house was not properly fumigated. I think if the city officials will give this matter due attention that they can arrange it satisfactorily to all and succeed in stamping out this disease entirely. Scarlet fever affects the school attendance more than any other disease."

Prof. Hatfield does not wish to have it thought that he is criticising the health authorities or physicians, but merely suggests this as a sure plan to rid the city of scarlet fever and better the schools.

WEEK'S NEWS IN THE BUSINESS WORLD.

Clearings this week were \$732,772
Same week last year 517,100
Increase 215,672

Business this week with the banks shows a good increase over the same week last year, a little over 40 per cent. Tobacco has commenced to move and is calling for money to move it, and for a few weeks money will be "tight" with the banks that have much of this class of business. The crop movement is earlier this year than usual.

Wholesale business is very good, notwithstanding the bad conditions of the country roads. The dry goods, whiskey, harness and saddlery and grocery houses have had an excellent week.

Collections are fair.

The Paducah Curtain Pole Co. contracted yesterday for their output for a year. This company has just recently started up in the old Clements mill property, and have fine prospects ahead.

The Lack Singletree Co. is receiving bids on an enlargement of their plant in the way of new buildings. It is the intention to erect a five story brick building on the site of the present factory.

January was a good month with the banks and earnings ran ahead of last year. Clearances were 30 per cent greater.

The midwinter dullness is on in retail circles.

AN INTERESTING CASE

Mr. R. C. Callissi Employs Attorneys to Sue the City.

Claims His Boarding House Has Been Unnecessarily Quarantined.

QUARANTINE STILL IN FORCE

The first case in this section of the state to test the liability of a city or community for quarantining houses or localities on account of contagious diseases when there is a disagreement as to the existence of a contagious disease, will be shortly filed in the McCracken circuit court against the city of Paducah.

Mr. R. C. Callissi, of Littleville, near the Illinois Central passenger depot, has employed Lightfoot & Yonts to bring suit against the city for the amount of damages resulting from a quarantine at his boarding house, which quarantine has even excluded him from his home. The suit will not be brought until the amount of damages is known, and the amount of damages cannot be fully estimated until the quarantine is removed.

Mr. Callissi states that his daughter, Miss Sylvia, is ill and that Health Officer Graves and another physician made a call and pronounced the malady smallpox or varioloid. Mr. Callissi says that Drs. Horace Rivers, the expert, Radcliff and Taylor, in addition to another prominent doctor, called the same day and all claim that the disease is neither smallpox nor varioloid. Mr. Callissi says that he has been excluded from his own home, his boarders have been driven away and his family is isolated by an unnecessary quarantine, and he has employed attorneys to bring suit against the city because of the quarantine established by the health officer.

The attorneys, Messrs. Lightfoot and Yonts, state that they have been employed, but cannot draw the suit until the amount of the damages can be more approximately estimated. They state that Mr. Callissi authorized them to hold a conference with the city health authorities, and if the latter would take down the flag and remove the quarantine at once he would say nothing more about it. Judge Lightfoot conferred with Health Officer Graves, he states, last night, but Dr. Graves would not agree to remove the quarantine, hence the suit will now be brought.

Judge Lightfoot thinks that residents of the county will soon take similar action for quarantining certain localities recently, where it is alleged no smallpox existed.

IN JUDGE LIGHTFOOT'S COURT.

County Judge R. T. Lightfoot is today trying the suit brought by Frank A. Lucas, as revenue agent for the state, against James Owen, who operates a ferryboat between Paducah and the Illinois shore. Lucas is suing Captain Owen to recover taxes and the 20 per cent penalty on his ferryage franchise, valued at \$50,000, for the years 1901, 1902 and 1903.

Mr. Fendall Burnett arrived from Mayfield today at noon.

Rock-a-Bye Baby

These are sweet words, but how much pain and suffering they used to mean. It's different now. Since Mother's Friend has become known expectant mothers have been spared much of the anguish of childbirth. Mother's Friend is a liniment to be applied externally. It is rubbed thoroughly into the muscles of the abdomen. It gives elasticity and strength, and when the final great strain comes they respond quickly and easily without pain. Mother's Friend is never taken internally. Internal remedies at this time do more harm than good. If a

woman is supplied with this splendid liniment she need never fear rising or swelling breasts, morning sickness, or any of the discomforts which usually accompany pregnancy.

The proprietor of a large hotel in Tampa, Fla., writes: "My wife had an awful time with her first child. During her second pregnancy, Mother's Friend was used and the baby was born easily before the doctor arrived. It's certainly great."

Very little additional can be learned of the killing a week ago at Murray of Hardee S. Thus far the sheriff has not been arrested and it is understood no inquest was even held.

Theatrical Notes.

At The Kentucky next week:
Wednesday night: Mrs. Brune in "Unorna."

Saturday matinee and night: Andrew Robson in "Richard Carvel."

J. Hoyt Smith, the eminent dramatic critic, was in Jacksonville, Fla., recently when Mrs. Brune appeared there and who will appear here at The Kentucky next Wednesday evening. He says of her performance, thus speaking of her acting: "When the curtain is up she is no more Mrs. Brune, but Unorna, the strange child of a strange land, possessed of a strange power and swayed by prejudices and environment. Fascinating, as the serpent that charms the bird and brings it fluttering to earth, the priestess of the Indian temples exerts her power over men and beasts, and withal falls herself under the spell of love—that passion which links humanity with divinity, and conquers without counting odds. Through every emotion, from childish playfulness, at the opening of the story, to the tragic finale, Mrs. Brune is understood and appreciated. The playwright and author have written much in the minor key, and yet brought the glad tones, to make perfect the picture in lights and shadows. Mrs. Brune in the hour reaches the heights of sublime happiness and descends to the lowest depths of despair. Her art is indisputable, her triumph complete."

Mrs. Brune has been surrounded by a company of players and given a magnificent scenic production. But all of this is detail that her audiences will soon forget.

It is not likely, however, that they will forget Unorna—the beautiful dark-haired, slender child of nature, who grew, before their very eyes to magnificent womanhood, and came to love and hate.

Andrew Robson, who appears as "Richard Carvel" in the dramatization of Winston Churchill's celebrated novel at The Kentucky Saturday matinee and night, is not one of those stars who labor under the impression that the public is attracted to a performance solely by the ability of the person whose name appears on the bills in the largest type; on the other hand it is his aim, as announced by his management, to present a play and a production that shall from beginning to end interest, entertain and satisfy his auditors by its consistent and impressive merit; and this he realizes can only be accomplished by the employment of capable artists in all the parts interpreted. Therefore he has taken pains to surround himself by a company, each member of which seems to possess individual ability to properly characterize the role assigned; and as a result no small portion of the praise that has been bestowed upon Mr. Robson's production of "Richard Carvel" has been devoted to the supporting cast, even the most minor parts having been frequently singled out and attention called to the careful and artistic method in which they were portrayed; while Miss Brothers as "Dorothy Manners," Miss Clarke as "Patty Swain," Miss Gallagher as "Mrs. Manners," Miss Knowles as "Betty Tayloe," Mr. Lieb as "Lord Comyn," Mr. Hamilton as the "Duke of Charteris" and Mr. Knyvet as "Charles Fox" seem invariably to share with the star laudatory commendation accorded to the entire production.

Adelaide Thurston, on her second tour as a successful star, is going to visit us Tuesday night, March 3, at The Kentucky. Last season, the dainty little actress was seen in "Sweet Clover" and jumped into immediate favor everywhere she appeared. This year she has a new play, "At Cozy Corners," by the same authors who wrote "Sweet Clover" and the critics are bestowing even more praise upon play and star than ever. The universal opinion seems to be that "At Cozy Corners" pleases better than "Sweet Clover" because it contains more natural situations and a wealth of laughable points. Miss Thurston made her first great success in the semi-comedy role of Lady Babbie, in "The Little Minister" and she is now fitted with a vehicle that enables her to sustain her well earned reputation as a comedienne. Miss Thurston's engagement here will mark one of the pleasantest memories of the present season. Her support includes Francis X Hope, Carroll Daly, Leo Hardman, Adam E. Fox, James H. Johnson, Helen Harcourt, Constance Glover, Minnie Allen and others in minor parts.

Society is greatly pleased over the coming engagement of Mrs. Brune

next Wednesday night. It will be remembered that one of the largest sales ever at The Kentucky was for Mrs. Brune last November when she was suddenly taken ill and the "takings" were refunded. Tuesday morning when seats go on sale it is expected that a greater "lineup" will occur than was for Miss Viola Allen last May. Manager English wishes to thank his kind friends in advance who so "generously" circulate the information "that every seat is sold" when a big attraction comes, and to say to them that he can get along nicely without this kindness as there will be plenty of seats for every one as the house seats 1500 and has never yet but once had every seat sold. This "generous" information always given by the "Knockers club" has a tendency to keep prospective patrons away who are afraid they can't get seats and who won't go to the trouble to come to the box office and learn the true facts.

Metropolis had an unusual experience Thursday in the show line. A play called "The Missouri Girl" was booked and thirty-five minutes after the sale opened every seat was bought. The reason was that the company gave a good performance last year and the people had not forgotten it.

Miss Mary Johnson's "Audrey" with Elenor Robson as "Audrey" will be here Monday, March 2.

WANT A SPUR.

FACTORY PEOPLE OF MECHANISBURG ANXIOUS FOR FACILITIES.

The railroad, telegraph and telephone committee of the general council met last night at the city hall for the purpose of considering the advisability of allowing the Illinois Central to build a spur track from the coal tippie track down Myers street across the tanyard fill to Clements street, thence into the various manufacturing there.

A number of the factory men were on hand and urged the improvement, saying that it would be a great convenience to them, and would not injure the rights of the public.

Some of the property owners protested, saying that a switch would make the thoroughfare dangerous because it was so narrow. The committee took no action, but adjourned to meet again this afternoon and again take up the matter.

The Week In Society.

AN OLD TIME VALENTINE.

Take it from the lavender,
Tenderly unfold it.
How it sings the grace of her
Who one time would hold it!
She who oft would read it o'er
Till she knew each letter
Of "Ye Rose is redde"—and more—
"But thy Cheekes glowe better."
Take it from the lavender—
Ragged now, and yellow,
Yet the song it has may stir
Us to feelings mellow.
"All ye Violette are Blue,
Yet in sooth thine Eyes are
Soche as shame ye Flowers' hue—
Bluer than ye Skies are!"
Lay it in the lavender
Where she shyly placed it—
Rich with memories of her,
And of him who traced it.
Long ago he wrote the line
That we now discover:
"Come and be ye Valentine
Of thy truest Lover!"
—W. D. Nesbit in Chicago Tribune.

A DAY TO CELEBRATE.

This is Valentine day, sacred to Cupid and his emissaries, who are supposed to be busy all day long in affairs of the heart. It is to be hoped that Society has paused to give the day its proper meed of observance. This is such a busy, unromantic sort of a generation, more given to cultivating muscle and head than the heart, that one is afraid St. Valentine's pretty custom may be pushed aside as "old-fashioned" and relegated to disuse. And then, there may be a fearful reckoning for Cupid is a marksman to be dreaded. Sometimes one is tempted to think the pretty boy is cross-eyed, he shoots so wide of the direction he seems to be looking, but the arrow, whether it goes straight or cross-cross, flies true as he intended, and hit or miss he never fails to do some damage. So that is why today should be duly observed by Society with all proper reverence and ceremonies sacred to the little winged god who rules it. It is too early yet to give any results from it, later events may testify to mischief done or good accomplished, just as one may happen to view it. Society has done some entertaining today, and the week has had much that is not recorded. Just because things seem quiet, you must not think Society is "as idle as a painted ship upon a painted ocean," there is much being done on the quiet. Next week has several affairs, and things will begin to crowd now before Lent closes the doors on all but the "most infor-

mal" sort.

A PAPER WEDDING ANNIVERSARY.

Mr. and Mrs. David Brown Sanders entertained informally on Wednesday evening at their home on West Jefferson boulevard, in celebration of the first anniversary of their wedding. It was an exceedingly pretty party and the guests were their attendants and a few other friends. Euchre was played and the prizes were won by Miss Laura Sanders and Mr. Will Gilbert. The tally cards were designed in orange blossoms and gold stars were the counters. An attractive course-luncheon was served in the dining room which was prettily decorated with tissue paper for the happy occasion. The guests were: Dr. and Mrs. Lillard Sanders, Messrs. and Mesdames Will Gilbert, Harris Rankin, Misses Elizabeth Sinnott, Laura Sanders, Myrtle Decker, Lillian Rudy, Messrs. Will Sanders, Tom Sanders, Edmund Clark, Hughes McKnight, Edwin J. Paxton.

DANCE TO VISITING YOUNG LADIES.

A very delightful dance was given on Wednesday evening at the Knights of Pythias hall by the young men of the Zenda club. It was in honor of Miss Florence Mulholland of St. Louis, Miss Monie Kirkpatrick of Ripley, Tenn., and Miss Ella Manning of St. Louis, three popular visitors in the city. Those in attendance were: Messrs. and Mesdames William Epstein, Harry Hinkle, Gardner Gilbert, Mrs. Will Hopkins, Misses Florence Mulholland, of St. Louis; Ella Manning of St. Louis; Monie Kirkpatrick, of Ripley, Tenn.; Boulah Reddick, Birdye Gilbert, Hettie Willott, Lula Kirchoff, May V. INTERESTING ILLUSTRATED LECTURE.

An event of especial interest in literary circles and to the picture lover and traveler will be the lecture to be delivered by Frank A. Cattern on Monday evening at the Cumberland Presbyterian church at 8 o'clock. Mr. Cattern is the director of the Chautauqua extension work, and is said to be a very fine speaker, with the art of making his subject very attractive. The lecture is illustrated with more than 150 kinetoscope views of the places about Chautauqua, in London, Liverpool, South Africa and many other places of note. These are very interesting and will give pleasure to all. The lecture is free of all charge, and Mr. Cattern should have a crowded house.

FIFTIETH WEDDING ANNIVERSARY.

Col. and Mrs. Q. Q. Quigley celebrated the fiftieth anniversary of their

wedding on Tuesday of the week very quietly at their attractive home in Arcadia. They were married in this city fifty years ago at the home of Mrs. Quigley's father, Col. James Husbands, one of the pioneer citizens and prominent men of early Paducah. The Husbands place was a spacious old-time mansion that stood on lower Jefferson street, where the Noble-Overbey wholesale store now is. Colonel and Mrs. Quigley have been identified with Paducah's life in many ways since, and their hospitable country home has been the scene of much pleasure for several generations of Paducah young people. They are very intellectual and are delightful company. They have a host of friends here, who have remembered them on the day and during the week with many good wishes and congratulations.

FLINCH CLUB.

Miss Monima Hopkins is entertaining the Flinch club this afternoon at her home on West Broadway. It is a valentine party and a very pretty affair in varied ways throughout the decorations and in the luncheon. The house is a bower of plants permeated with the delicious fragrance of fresh violets, which are profusely used in the decorations and were ordered from Memphis. The tally cards are hand-painted violets and all the prizes are pieces of china, hand-painted in violets. The ices are in the form of large violets, and the cakes are iced in violet, while tiny candied violets garnish the salads. The whole effect is a charming conception in violet. An orchestra is playing during the afternoon. The guests are all married ladies.

than from anything she had ever tried. She was suffering from Stomach Trouble and Constipation. She writes us that she has gained 28 pounds and is fully cured. Name on application.

Mrs. Wm. Collier, 135 N. Robey St., Chicago, Ill., under date of Nov. 2, 1901, writes: "I have been troubled with Indigestion and Nervousness and Weakness in the back for seven years. I have been to four doctors and have taken many kinds of medicine, but could not get cured. I saw your advertisement in the paper and I sent for a trial bottle. Even the trial bottle did me good, so I sent for a \$1.00 bottle of your drugist, but he had only a fifty cent bottle, so I took that, then the next time I got a \$1.00 bottle. I am very glad and proud of your medicine and I am willing for you to advertise me anywhere for your remedy."

Y. M. C. A. NOTES.

Tomorrow afternoon at 2 o'clock the Boys' Bible Chemistry class will meet. This will be followed by an address by Rev. J. C. Reid on "His Fatal Mistake." DAILY THOUGHT.

The lines of our life stretch farther than we think. We lay our plans for the future and they prove to be tracks that never end. Do you ever think how they touch on the margin of an endless future?

—Congregationalist.

THE WEATHER.

Rain or snow tonight with colder in the eastern portion. Sunday probably snow, except fair in extreme western portion.

The Democrats in congress can probably best afford to oppose improvements at the White House. No Democrats will in all probability ever have occasion to use it.

Beckham will about Monday, according to reports, begin the superfluous formality of "opening his campaign." They might as well give him the nomination and let the Republicans do the rest. The Democrats can't beat him, and the Republicans can.

The harder the Democrats fight each other the weaker they will be when the time comes to fight the Republicans this fall. We don't have any hesitancy in so announcing because they have gone too far to cease hostilities. Republicans should feel very much encouraged in Kentucky.

No wonder some of our neighbors from Graves come to Paducah to enjoy themselves. One man who was arrested three times in three days for drunkenness was the last time fined \$20, despite the explanation he made that it was the same old drunk. It would have been about nineteen dollars cheaper in Paducah.

A man in Marshall county is 83 years old, and has voted for twenty-three Democratic candidates for president. He is probably ashamed to think of how many votes he has wasted. If he lives eighty-three years longer he will probably vote for about twenty-three other Democratic candidates for president who will not be elected.

A Chicago judge has just roundly denounced matrimonial agencies, declaring that a woman who can't get a husband any other way or a man who can't get a wife any other way has no business marrying. He says it is virtually putting yourself on the market for sale like a hog or worn-out steer, and he will show no mercy to those connected with the bureau when brought before him.

In asking appropriations of fiscal courts in the state for the Kentucky Exhibit association, it is not desired that the amount be limited. One of the smallest counties in the state has donated \$200, while Jefferson county has given \$3,000. It is desired that the appropriations of the various counties be commensurate with their size and importance, and it is hoped that McCracken county will do the right thing.

Our contemporary, the Mayfield Messenger, seems to regard General Manager J. F. Wallace's telegram stating that the Illinois Central had not decided to build the "cut-off" as conclusive proof that it will. The Messenger is entitled to its opinion, but there is no occasion for alarm in Paducah. The cutoff has been surveyed from time to time for 25 years without having been built, and what has been done before can be done

again.

The news comes from Chicago that the latest trust is a religious educational trust. A dispatch to the Globe-Democrat says of it: "The whole theory of the new organization is that of co-operation and combination. It proposes to gather together every secular and religious educational agency into a co-operating body, with itself at the head. It proposes to form departments governing the different agencies through which religious education may be disseminated. It will have a board of directors, an executive committee and all the powers of a corporation. It will become such a power in the land that finally it may be that all educational institutions must bow to its supremacy. By its power it may destroy the force of varying creeds, unify, as far as possible, all denominations under one broad head and develop the spirituality that exists in humanity."

The effort to secure a spur track to Mechanicsburg manufactories is one that the municipal authorities should well consider before they act. It is believed that a switch into the district named would be of incalculable benefit to our industries and consequently to the city. It is so claimed by the manufactories and the rights of no one else, so far as is apparent, would be affected by the additional trackage. One concern has already sold its entire output for a year, and will require many cars to transport its product, while another concern is preparing to build a five story structure elsewhere in the city because it could not secure desired railroad tracks in Mechanicsburg when it was preparing to build. There may be disadvantages in constructing such a track, but it is believed that a careful consideration of the various features of the case will convince the authorities that the advantages will well outweigh the disadvantages.

The fact that General Basil Duke, evidently a most worthy gentleman, was really not offered the judgeship by President Roosevelt, has not deterred the Democratic press from abusing the general because he saw his mistake in being a Democrat and became a Republican, and has made a good impression on the prominent Republicans of the country. Very few Democrats ever attain that high degree of intelligence that enables them to see the error of their way and join the greatest party of the past, present and future—the Republican—and those who do not are naturally envious. As a matter of fact, however, it is reliably reported from Washington, that the whole judgeship affair started from a joke in which President Roosevelt said in the presence of a congressman who came in when he was talking to General Duke and asked about the judgeship appointment, that he had "just offered it to General Duke, who wouldn't have it." The congressman thought he was in earnest and told it, and the reporters did the rest. The Democratic press is so eager to roast General Duke, however, and arouse resentment among the Republican aspirants for the judgeship, it has failed to publish the true statement of facts.

WHEELER GUARDS.

A BANQUET TO BE TENDERED
CONGRESSMAN WHEELER
MONDAY NIGHT.

The Wheeler Guards, Paducah's military company, will tender Congressman Charles K. Wheeler, who is just back from Washington, a banquet Monday night at the armory on Jefferson street between Second and Third. A number of outside guests will be invited, and speeches will be a feature of the evening. It is expected to make it a most enjoyable occasion.

Congressman Wheeler entertained the boys before he left, and the boys are going to show their appreciation by entertaining him.

Two Distinguished Stage People.

Maud Hobson, an English actress who is being touted as "the most beautiful woman in the world," has arrived in New York. On the same steamer came an English actor, Herbert Sleath, who is called the richest actor in the world. He sticks to the stage because he likes it. Sleath is a crack polo player, a clever jockey and has many rich friends in this country.

Problem for Women.

To the average woman a more important issue this fall than anything pertaining to her ability to vote is the frightful problem confronting her of how to make her last winter's cloak look as if it belonged to this year's vintage.

Many Indians in Mexico.

Mexico has more Indians than any other American country. In all, they number about 2,800,000. The Argentine Republic has also over 3,000,000 Indians.

CURES WEAK MEN FREE.

Insures Love and a Happy Home for All
How any man may quickly cure himself after years of suffering from sexual weakness, lost vitality, night losses, varicocele, etc., and enlarge small weak organs to full size and vigor, simply send your name and address to Dr. Knapp Medical Co., 409 Hull Building, Detroit, Mich., and they will gladly send free receipt with full directions so that any man may easily cure himself at home. This is certainly a most generous offer and the following extracts taken from their daily mail show what men think of their generosity.

"Dear Sirs—Please accept my sincere thanks for yours of recent date. I have given your treatment a thorough test and the benefit has been extraordinary. It has completely braced me up. I am just as vigorous as when a boy and you cannot realize how happy I am."

"Dear Sirs—Your method worked beautifully. Results were exactly what I needed. Strength and vigor have completely returned and enlargement is entirely satisfactory."

"Dear Sirs—Yours was received and I had no trouble in making use of the receipt as directed, and can truthfully say it is a boon to weak men. I am greatly improved in size, strength and vigor."

All correspondence is strictly confidential, mailed in plain, sealed envelope. The receipt is free for asking and they want every man to have it.

Our Beloved Flag.

Since the beginning of the war with Spain reverence for the flag seems to have deepened and broadened. Before that period only about \$450,000 worth of flags was made in the United States in a year; to-day the output is valued at \$1,000,000. People who loved the flag in a negative sort of way and had never thought of buying even a little one for home use on national occasions now have on their window sills patented sockets for staffs from which the Stars and Stripes are flung to the breeze whenever opportunity offers.

Snobbery in America.

In the days when King Edward was Prince of Wales he always required, when paying a visit, that a list of his fellow guests be submitted to him so that he might add to or reduce the same. The New York "four hundred" have taken up this custom. Grand Duke Boris was a dinner guest at the Newport villa of Mrs. Ogden Goelet, and was allowed to indicate just how the company should be made up, so that in a certain sense the entertainment was all his own.

Married on Small Capital.

Lack of cash did not prevent a Hoboken bridegroom from plunging into the sea of matrimony. Accompanied by his intended bride, and with all his worldly wealth neatly tucked in his watchpocket, he aroused Justice Pfundmiller at the unseasonable hour of 4 o'clock in the morning. The magistrate married them, and the groom generously gave him one-half of his wealth, 50 cents.

Five Generations of One Family.

Five generations of one family are living in the south of Pillow, Dauphin county, Penn. They are Mrs. Henry Feagley, aged ninety-one; her daughter, Mrs. Jacob Leuker, aged sixty-nine; Mrs. Leuker's daughter, Mrs. Frank Snyder, aged forty-four; the latter's daughter, Mrs. A. R. Deibler, and her son, Russell, aged three months.

"Isles of Safety."

New York is to have "isles of safety" to be located at congested points of traffic. They are really harbors of refuge for citizens engaged in dodging street cars, and will afford infinite amusement to the drivers of the merry cable car. If the car catches the passenger before he lands on an isle of safety he's it, and they call the meat wagon.

Has the Right Spirit.

A man in Pennsylvania whose left hand was caught in a thrashing machine the other day saved himself from death by throwing his right arm around a projection and holding on while the machine tore the other arm off at the shoulder. If he survives the injury that good right arm will manage to make a living for him somehow.

Of London Fog.

A Frenchman was paying his first visit to London and was walking through Hyde Park on one of the many foggy metropolitan mornings with an English friend. "Fog! Ha, ha, mon frere," ejaculated the Frenchman. "Now I understand vot you mean ven you say ze sun nevaire set on your dominion. Ma foi, it does not rise."

Seaweed Town.

Cookstown is a seaweed settlement in Alaska. It was originally built of clay bricks, but the action of the sea salt, with which the air is heavy, caused the bricks to crumble away, and in their place were substituted slabs of seaweed mixed with salt, compressed and baked.

Leaves Ministry for Commerce.

Rev. Charles A. Tuckingham, the New Jersey clergyman who recently created a sensation by resigning the pastorate of a Baptist church because he could not accept some doctrines of the denomination, has become ticket agent for the Pennsylvania road, at Pittsburg.

Without Benefit of Clergy.

He died in town this summer. During his last illness his wife nursed him over the telephone from Newport; his doctor treated him by telegraph from Bar Harbor, and a letter, written from the top of the Alps by his clergyman, was read over him at the funeral.—Life.

Aged and Youthful Statesmen.

FORT MASSAC.

HISTORIC SPOT MAY SOON BE BEAUTIFIED.

It is reported that \$10,000 was incorporated in the national appropriation bill, recently passed by congress, for aiding in the purchase and beautifying of the site of old Fort Massac in Metropolis. If the legislature appropriates a similar sum great improvements will be made on the old site the coming summer.

The congressional appropriation specifies that it is to be a national park, which means that the government will look to keeping up this historic spot in the future.

Spanish Women and Their Dolls.
A correspondent in Madrid writes: "Senora Valdes, wife of the celebrated Spanish novelist whose books are well known in England, naively asked me to take a photograph of her with her doll. It will seem curious to many persons to find women of mature age still interested in their dolls, but it is quite the usual thing in Spain."

Use for Ugly Women.
When a Chinese girl gets married her attendants are always the oldest and ugliest women to be found in the neighborhood, who are paid to act as foils to her beauty. It is said that some exceptionally ugly old women make their living by acting as professional attendants at weddings.

Motor Cars in Scotland.
The motor-car terror is said to have struck Scotland severely on account of the number of rich tourists who visit that country. In one case a heavy racing automobile, running very rapidly at night, plunged into a flock of sheep being driven to market, and killed and mangled quite a number of them.

Revolutionary Episode Forgotten.
The anniversary of what is known as the Paoli massacre, when Gen. Wayne with 1,500 men was set upon by 3,000 British on September 20, 1777, twenty-one miles from Philadelphia, was unobserved this year for the first time since the Revolutionary War. A high granite monument now marks the site of the battle.

Largest Type of Butterfly.
The largest butterflies are the "bird-winged" of the Moluccas. Their wings are sometimes twelve inches in expanse.

SMALL DOCTOR'S BILLS.

SCIENTIFIC FEEDING THE WAY TO REDUCE THEM.

A little science in the selection of food leads to good health and smaller doctor's bills. Ill health not only cuts down the earnings, but increases the cost of living, too. How many men and women would like to save the biggest part of what they now pay out for sickness yearly? As most ailments come from improper feeding it stands to reason you won't need the doctor so often if you feed yourself and family right, and the doctor would be pleased as well.

The principal of the well known Holland Academy at Beckville, Tex., writes as follows: "Having been a user of Grape-Nuts for the past two years, I beg to offer a testimony of the effect it has had upon myself and family."

"When I began the use of Grape-Nuts my wife and I were taking a resort for our health in South Texas. Up to this time our lives were indeed miserable as a result of continual bad health, ill tempers and heavy doctor's bills. One day a merchant of Burkeville, Tex., advised me to try Grape-Nuts as a diet."

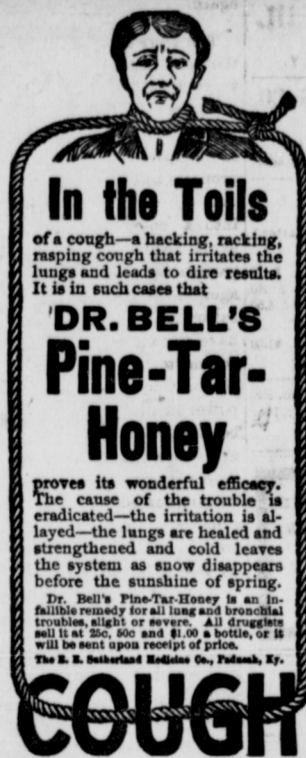

"Doubting that it would benefit me any, I took home a package however, and before I had used this box I had begun to see the good effect it had on my digestion. So I continued its use. After I had used the third package I discontinued the use of medicine altogether, as I saw Grape-Nuts was doing more for me than all the medicine I had taken."

"When I returned home my friends and neighbors hardly knew me, I had improved so in health, appearance and energy. I had my grocer at Carthage order a supply and have continued to use it."

"This year my family life has been more happy than ever, and my business, which had been nearly wrecked before, is now prosperous."

"As I am a teacher, worried with the care of from 100 to 150 small urchins in our rural school, I am subject to considerable worry and strain upon the brain. Since my daily diet of Grape-Nuts, however, I must say my school work is not nearly so unpleasant."

"I recommend it for a plain, simple diet, full of nourishment, just the thing for that worn and tired-out feeling in the brain. Respectfully, honestly and earnestly yours," Name furnished by Postum Co., Battle Creek, Mich.

Copper Stock

The Majestic Copper Mining
and Smelting Co.

in Beaver County, Utah, has ore lying on its dumps worth between \$1,500,000 and \$2,000,000 and seven million dollars more all ready for mining—ore blocked out or in sight.

These are simple facts easily determined. The entire capitalization of this Company, which owns eight groups of mines, namely: Hoosier Boy, Vicksburg, Harrington-Hickory, Old Hickory, O. K., Larkspur, Copperfield and Treasure Groups—wonderfully rich in Copper, Gold, Silver, Lead, Iron and Zinc, is but \$6,000,000. The mines are estimated by the leading mining experts to be worth many times the capitalization, and still the Majestic Company is selling some of its treasury stock at a price, \$7.50 (par value \$10.00), which will quickly raise the necessary money to complete its development work and make the last payment on its 350 ton smelting plant. This plant will be in running order in a few weeks. Thirteen carloads of copper ore from these mines worked up in Chicago showed 48 per cent. copper, and every ton of \$1,000,000 worth already marketed gave enough gold and silver to pay for putting smelted copper on the market free of cost. Company's own railroad tracks out to mines and smelter. Only enough more to sell to meet last payment on smelter plant, balance three-quarter million to be held for much higher prices. Stock will be listed on exchange in a short time, and will pay a fine dividend this year.

Once the smelters are running the "Majestic" will be absolutely independent, as it owns outright all of its wonderfully rich property.

The price of stock will be advanced in February and only persons writing at once will be able to secure stock at the present figure.

We will mail free handsome 44 page illustrated book, "Above and Below the Surface," which fully describes this great group of mines. Every statement we make is literally and exactly true, and may be verified by a visit to the mines with one of our parties of investors. Private car with every convenience leaves in a few days. Send in reservation now and pay for the stock when proof positive regarding its value is given you. Letters and telegrams will have immediate attention.

MELANCHOLIA

Is a Perilous Disease and One That Leads to Insanity.

Paine's Celery Compound

Has Saved Thousands of Melancholists From the Grave.

Melancholia is a grave disease; it has a tendency to induce suicide and homicide; in many cases it leads to dread insanity. The first important symptom of ordinary melancholia is sleeplessness. Another symptom of the greatest importance is a dull pain in the back of the neck, extending to the back of the head. Then we see other symptoms, such as depression of spirits, slow mental and muscular movements, retarded speech, terrifying hallucinations, aversion to food and a disregard of life. Every case of melancholia is directly traceable to a weakness or collapse of the nervous system. The nerve branches of the sympathetic system, the spinal column and brain, are not doing their work, and the blood is thin, sluggish or impure.

Paine's Celery Compound is the great rescuer and life-builder for every melancholic victim. As a nerve food this marvelous Compound quickly imparts nourishment and life to the weak and famished nerves, after which comes a new vitality—a feeling that life is precious and worth living. The stomach, liver and kidneys are toned, digestion becomes perfect, a natural appetite is bestowed and sweet, refreshing sleep conduces to a vigorous health. Paine's Celery Compound has saved more melancholic and nervous sufferers than all other combined agencies. Do not treat the symptoms of melancholia with indifference. Begin today with Paine's Celery Compound and avoid the perils that drag to insanity and the grave.

CHEAP HOMES IN TEXAS AND ARKANSAS

Along the Cotton Belt route—land that can be bought for \$2 to \$5 an acre and up—cut-over timber ground that makes good grazing land, full growing range ten or eleven months of the year, farming land for corn, wheat, oats, cotton—some of it peculiarly adapted to quick growth and early maturity of fruits and vegetables, such as peaches, pears, plums, strawberries, tomatoes, potatoes, onions, cabbage, melons—finding good markets in the north at fancy prices, on account of excellence of quality and earlier maturity than in other sections. An ideal place for the man of small means—cheap fuel, cheap building material, long growing seasons, short, mild winters—a land of sunshine and plenty. Let us send you literature descriptive of this country.

"Homes in the Southwest," "Glimpses of Southeast Missouri, Arkansas and N. W. Louisiana," "Through Texas with a Camera," "Fortunes in Growing Fruits and Vegetables," "The Diversier," a fruit and truck growers' journal.

On first and third Tuesdays of each month the Cotton Belt Route will sell one way tickets from St. Louis, Thebes, Cairo and Memphis, to points in Arkansas, Louisiana and Texas, at half the one way rate plus \$2 or round trip tickets at one fare for the round trip plus \$2, allowing stop-over going, and 21 days return limit.

Adam the Unique.
When Adam went a-courting Eve
He didn't have to watch the clock.
Regretting when 'twas time to leave;
There were no gossips there to shock.

She didn't make him sit away
Across the room and talk about
The newest book or latest play
That others had been bringing out.

She had no red-plush album there,
With photographs of Uncle John
And Aunt Louise and Cousin Claire
And others who were dead and gone.

He never when she sweetly sighed
Was forced to flee with all his might
In order to obtain a ride
Upon the last car out that night.

Ah, happy Adam! He was free
From grief the later lover bears—
Eve never whispered suddenly:
"I think I hear pa on the stairs."

World's Tallest Stairway.
The stairway leading to the tower of the Philadelphia city hall contains 598 steps, and is said to be the tallest continuous stairway in the world.

STILL RISING

River Here Will Probably Reach the Danger Line Soon.

The Bad Weather Has the River Men Guessing at Present.

The Ohio is within less than a foot of the danger line at Paducah at present, with rain, an east wind and the river still rising. It has river men guessing. Reports from above indicate that the rivers are nearly all rising, or will be by night, and if the rain is general, there is no telling how much more water there may be.

Talk of a flood however, is not indulged in freely. The river is climbing slowly, and while the rise is slow, it cannot at present be determined what the present weather will result in.

THE OWL CAR

AND THE TROUBLE IT CAUSED A WEST BROADWAY FAMILY.

A short time ago a prominent family of West Broadway, the members of which are early risers and consequently retire early, were awakened by the cook for breakfast. The girl has a room at the house, and is also an early retiree. She also on this occasion proved to be an early riser.

She awoke about the usual time, she thought, and heard the street cars passing. She concluded it was about 6 o'clock, and getting up she lighted the fire and prepared breakfast. She aroused the family, and they arose, dressed and ate breakfast. They then began to wonder why it didn't get light, and finally some one looked at the clock in another room and saw that it wasn't 1 o'clock. The owl car had been mistaken for the regular cars which leave the car shed at 6 a. m. The first thing the family does now when aroused in the morning is to look at the clock.

LOW RATES TO CALIFORNIA.

Commencing February 15, and daily until April 30, 1903, the Illinois Central railroad company will sell one-way second class colonists' tickets from Paducah to San Francisco, Los Angeles, San Diego and other points in California taking same rate, and also to Prescott and Phoenix, Arizona, and intermediate points, for \$31.40. Tourist sleeping cars on which these tickets will be honored pass through Paducah on train No. 103 at 3:42 a. m. every Wednesday and Saturday, running through to Los Angeles and San Francisco. Stop-overs allowed in California. For further information apply to J. T. DONOVAN, Agent.

GRIP RECOVERED.

PADUCAH DRUMMER LOSES A NUMBER OF ARTICLES AT FULTON.

Mr. August Theiring, who travels for Hank Brothers, has recovered a part of the goods stolen from his grip at Fulton a few days ago. The grip with his name and a number of articles were found near the depot, and was stolen from him at the depot. It contained when stolen a suit of clothes, machintosh and fine sample knives and razors most of which were gone. No clue to the identity of the thief has been discovered.

MARDI GRAS, NEW ORLEANS.

On account of Mardi Gras, to be held at New Orleans from February 18 to 24, the Illinois Central railroad company will, on February 17 to 23, inclusive, sell round-trip tickets from Paducah at one fare, good returning until February 28, subject to extension to a date not later than March 14 by deposit of ticket with special agent not later than 8 p. m., February 28, and upon payment of fee of 50 cents additional. Stop-overs will be granted at certain points, providing passengers reach New Orleans not later than February 28. For further information apply to J. T. DONOVAN, Agent.

The Otter as a Pet.

The otter makes a most interesting pet. A gentleman residing at Killaloe, Ireland, has sold a number of tame otters, some of which follow him about town like dogs, and are frequently taken down to the Shannon river and allowed to disport themselves in the river or the lake, when they often secure fish, and come out at once to their master when whistled for. One, which was a particular favorite, met its death in a peculiar manner. It contracted distemper after entering the kennel of a dog that was suffering from a bad attack.

MRS.
MAY
DOHSE,
CHICAGO, ILL.

CONDUCTRESS
(President) of the
Marys of the Lake,
Catholic Order of
Foresters.

10 Chestnut Place,
CHICAGO, ILL., March 12, 1902.

I have for years heard good things of your Wine of Cardui, but never really knew how excellent a remedy it is, until last fall when I became suddenly chilled when I was out and not clad warm enough. Unfortunately it happened at a time when every woman should use extra precaution against colds. As a consequence the functions of Nature stopped and although I thought little of it at the time I soon found that it was much more serious than I had anticipated. I did not seek medical assistance until over a month had passed and I had found no relief. I had terrible cramps and pains, intense backache and dizzy spells. The doctor said inflammation had set in and prescribed for me. But nothing seemed to help me. Reading your Almanac I soon became interested in Wine of Cardui. I then remembered hearing some of my lady friends telling how grand it was. I then dismissed my doctor and decided to try Wine of Cardui. I took it for three weeks and to my great joy I found relief. Gradually the inflammation passed away. I became once more regular and suffered no more pains, whatever. I am sure there are hundreds of women who are daily suffering as I did, who do not know which way to turn for relief. To these I would say: "Stop paying doctors' bills and taking medicine you know nothing of; stop letting the doctors experiment on you. Half of them don't know what really ails their patients. Stop wasting your strength and your money and take Wine of Cardui. After you have taken one bottle of Wine of Cardui you will feel so much better and you are sure to be cured if human skill can cure. It is cheap to make the experiment anyhow and take my word for it, you will not regret it." I am glad to give you this unsolicited testimonial, glad to do my little to show my appreciation and only hope it may be the means of advising some poor suffering women, and may help them from daily misery to health and happiness.

May Dohse

SO delicately poised are the organs of womanhood that even slight neglect and exposure result in serious trouble. Few women regard first menstrual irregularities serious enough to require medical attention. Consequently from little irregularities serious troubles grow. Women are usually too modest to tell these troubles to a doctor. Wine of Cardui can be taken in the privacy of your home. If your trouble is just beginning you have no excuse not to take this remedy today. It is easy to take and there is no publicity in the treatment. If your case has been long running and doctors cannot help you, read what Mrs. Dohse says and remember that thousands of so-called "hopeless" cases have been cured by Wine of Cardui. Wine of Cardui will completely cure nine out of ten cases and it will benefit every case of female troubles.

The REFORMER

By CHARLES M. SHELDON.

Author of "In His Steps," "Robert Hardy's Seven Days," etc.

Copyright, 1901, by Charles M. Sheldon

Down at Hope House Paul Falmouth, who had come in to consult with Miss Andrews about some work his people had volunteered for her, was talking over John Gordon's affairs when he came into the library. Miss Andrews was called out, and the two men were left together. Since Barton's death Gordon had felt drawn toward Falmouth. There was something very wholesome and helpful about the man when one came to know the real man beneath the scholarly, refined, deeply sensitive nature.

"Then your father's death will really make little difference with your future?"

"Very little if any," Gordon answered gravely. "Mary is going abroad for a year with Aunt Hester. Poor Mary! She is just about broken down with all that has happened."

"Then you will keep on here?"

"Yes. There is nothing else for me to do. Father's business passes into the receiver's hands. Practically all he had, or all we supposed he had, is gone. Aunt Hester will take Mary into her home when they return."

Falmouth was silent a moment. Then he leaned over and put a hand on John Gordon's arm.

"Do you know I have had a great temptation of late, especially since the fire—to give up my parish and come down here with you?"

Gordon's face lighted up. "That would be a great thing for us! But—"

"But a cowardly thing for you to do! You are right," Falmouth said quietly. "Why should I run away from the hard work here I am? And yet, Gordon, no man knows, unless he has been in the ministry, the enormous demands on the profession. I am not speaking in boastfulness or complaint when I say that no profession requires such constant and varied exercise of all the power of manhood. Do you wonder, Gordon, that the ministry sometimes grows discouraged as it faces a labor that in the nature of the case can never be completed in any sense and has the vision of an ideal that no church or parish ever yet realized? And then of late I am haunted by a doubt as to the value of a great deal that I am doing. It is not the hard work I am beginning to dread; it is the fear that it is wasted power and that the organized church of today ought to be changing much of its practice in order to do what Christ wants done."

"Would you mind telling me something in detail what you mean? Give me a page out of your day's work?"

Gordon asked with genuine interest. Falmouth was going through a crisis in his church life, and Gordon was beginning to have more than a very strong personal feeling for him.

"It will be talking shop," Falmouth smiled sadly and hesitated.

"That's pardonable between friends," Gordon answered, with a look that showed the minister a little further into his affectionate nature.

"Well, you understand all right," with an air of relief. "Take yesterday as an example. The morning started off with a miscellaneous correspondence that took about fifty minutes. Then I worked on my Sunday morning sermon for an hour. At the end of that time I had to leave the study to hunt up a boy whose mother wrote me about his being sick at a boarding house on Ross street. I had to go in the morning because of engagements that filled every minute of my afternoons for the next two weeks. I found the young fellow in desperate condition, brought about by his own sin. It was a case that could not be turned over to others. I shall feel obliged to go and see him often, in order to meet the appeal of that mother. Back to my study in time to write a little on an address for next meeting of our local association. Home to dinner. Funeral at 2 o'clock. The place happened to be quite near the church, and I was not asked to go out to the cemetery. The people were strangers to me and were in great trouble. Went back to the study to get word to our visiting committee to see this family as soon as possible. By the time that was done I started for the county hospital on Burke street to visit one of my church members, very seriously ill there. At 5 o'clock I was back at the church, where a committee of my Endeavor society had a special meeting to revise their constitution and to plan for the winter's campaign, and wanted my presence and advice. Owing to the failure of part of the committee to be prompt it was 6:30 before I left the church."

"After supper I had a wedding over on Park avenue. Mrs. Falmouth was unable to go with me on account of the illness of one of our boys. When I left the wedding party, it was 9 o'clock. As I was getting into the carriage to go home a messenger boy brought a message asking me to call at the hospital, as my parishoner was in a critical condition and might die before morning. I went at once and stayed until midnight, when the patient's condition grew better, and I left for home. When I reached home, I found my wife sitting up with the boy, who had become quite sick. I sent her to bed and stayed up with the child until he was better. Early this morning I was sent for by the family at

whose place the funeral was held, asking me to call this morning, as one of the members of the family was in a serious condition. I called, and when I got to my study it was after 10 o'clock. It is Wednesday, and only a part of my next Sunday morning sermon is completed. I have not even selected a text for the evening sermon. The subject of my prayer meeting is 'Best Methods of Modern Bible Study.' I have partly prepared the service. I have three committee meetings tomorrow afternoon and an address in the evening on the 'Duty of Good Citizens in the Coming Municipal Campaign.' This is before the mass meeting arranged by the committee of fifty. There are five or six families in my parish in great need of my personal visitation, and two deaths occurred yesterday, which means funeral services tomorrow. My assistant has been on the sick list for nearly a month, and the church, of course, cannot well supply his place, although volunteers are doing some of his work. I am not complaining, Gordon. I have some of the best men and women in the city in my church membership. They are loyal and true, and any man might well be proud of their friendship."

"I am not complaining either about the bewildering number of calls on my time and sympathy from strangers and people entirely outside of my parish. It is a compliment to the ministry that the un-Christian part of the community turns to the church and the preacher for comfort and help. All these things I accepted when I entered the profession. I would be a fool to act the baby now that heavy burdens of trouble in other people's lives are rolled upon me. It is all a part of the profession which I deliberately chose. A doctor might as well complain that his work brings him face to face all the time with physical pain as the minister complain that his work brings him constantly into the presence of sin sickness and spiritual ruin. This is what every true ministry means and always will mean, and the man who wants to shrink all that had better never enter the business of preacher and pastor. But the doubt that lately has begun to torment me is the doubt that all this that I am doing in and through the church is worth while doing through that organization. My ideals are constantly disappointed. With the exception of the minority that can be found in almost every church I am obliged to confess that my views of the real work of a church ought to be not accepted by my people, and I am going on with the pressure on me of all this miscellaneous machinery of service, tormented with the question, Is the church, after all, the best organization for doing work for humanity, or is the church even approximately doing the things that most need to be done? It is not the service that I shrink from. I am only filled with a great longing to serve in the place where it will amount to something."

"You are tired out," John Gordon laid his hand affectionately on Paul Falmouth's arm. He did not know just what else to say. His thought of the church had coincided too closely with the minister's to enable him to come to the defense of the church as it seemed to need defense in the face of Falmouth's doubts.

The minister smiled at Gordon rather sadly.

"I may be tired at present, but that does not account for my present position. Don't let it vex you," he added quickly. "I ought not to have delivered my little woe here. This house is the center of its own peculiar sorrows. God forbid that I should introduce into it my own selfish egotism or even my personal struggles for light in my own darkness."

"Always room for one more, I am sure," Gordon protested, but Falmouth shook his head and refused to continue the discussion. He had risen to go when Miss Andrews entered with a glow on her face that struck both men as a new look.

(TO BE CONTINUED.)

Typhoid Fever Prevalent.

Chicago is not by any means the only American city which is stirred up by a typhoid scare. There are several others, including Paterson, N. J., where the health department has just taken an odd and decided preventive measure. A number of cases have been reported from a section of the city immediately contiguous to one of the city wells. Dr. Frank E. Agnew, an official of the health board, took away the handle of the pump and will keep it locked up until some of the water has been analyzed.

Third Generation of Lawyers.

Lord Coleridge, K. C., represents the third generation of a notable family of lawyers. His father was lord chief justice and his grandfather also sat upon the bench. The present Lord Coleridge was member of the Attor-cliffe division from 1885 to 1894, when the death of his father compelled him to take his seat in the upper house. It did not prevent him from practicing at the bar nor has the society of peers affected his radicalism. He is a strenuous humanitarian, which is a characteristic of the Coleridge family.

Flexibility of a "Dorothy Dodd"

EASY SOLES

IT IS SAID that the woman who goes to church with squeaky shoes goes to the right place, for her shoes needs attention. There is really a good deal about the sole of a woman's shoe that needs attention. You realize it if you stop to think how much you relieve the discomfort and "hardness" of shoes by making their soles flexible.

So far as I know (and I have taken pains to examine many different makes of shoes) the "Dorothy Dodd" is the one shoe for women that is really constructed with a flexible sole.

You can tell the difference as soon as a few steps have been taken. It means comfort. And a flexible sole, as rule, will out last any rigid sole—don't overlook that!

They Cost **\$3.00** *Dorothy Dodd*
